## **MATHS CLUB ACTIVITY REPORT**

Name of Activity	:	Special Assembly and Maths Model Display
Name of Club	:	Maths Club
Activity Incharges	:	Ms. Sarada Iyer & Ms. Arshdeep Kaur
Activity Date	:	15-Dec-2023 & 13-Jan-2024
Class	:	IXth
Activity Location	:	Auditorium & Middle Floor Corridor
Judges	:	Ms. Bela & Ms. Bhavana
Time/Period	:	1 <sup>st</sup> & 2 <sup>nd</sup> Period

Maths is a fascinating subject and an integral part of our day to day lives. Life is like a maths equation. In order to gain and grow, we need to convert the negatives into positives.

Towards this end of inculcating the interest in maths, children gathered to commemorate the Mathematics Day on 22<sup>nd</sup> Dec, 2023 in honour of the birth anniversary of great Mathematician Shri. Srinivasa Ramanujam.

Children expressed their interest in maths through various art forms like dance, music, thoughts, skit, etc. The skit on Smt. Shakuntala Devi brought out the dynamic role of Mathematics in our daily lives.

Mathematics Models in 2D and 3D form displayed the creativity of the students while also inculcating the habit of self-study and practical application of Maths. They were thought provoking and kindled the interest of the children. By working on these models, the children were able to understand various art integration forms.

### **Take-away from the Activity :**

- a) Instilled a better understanding of mathematical concepts, ease of use and clarity in solving problems
- b) Enrich mathematical experience of the students in a fun-filled atmosphere.
- c) Holds potential to sharpen the thinking and problem solving skills of the students.
